<b>Approximate cost for the 3-month supply in US funds:</b>					<b>\$952.90</b>

<sup>1</sup> Optional, not included in the price total.

<sup>2</sup> If pre-treated with chemotherapy there will be no need for castor oil (unless used for castor oil packs) and ox-bile, until nine months after starting the therapy.

<sup>3</sup> If on a strict budget, this supplement can be optional.

<sup>4</sup> Order from Omega Nutrition: \$5.25/bottle (min. purchase, 6 bottles), Health Food store: Approx. \$14.50/bottle

### NOTE:

- The above estimate is based on the main essential supplements needed and the lowest price offered by companies which carry the Gerson supplements. Some companies, you will note, have higher prices than those listed above, so your costs may be higher if you order more expensive supplements.

- This estimate is based on the supplements and dosages for the full protocol. The full protocol requires higher amounts of the potassium compound, Lugol's and thyroid for the first month. If one is starting on a modified level of therapy, fewer bottles of thyroid and potassium can be ordered.

- Crude liver is currently unavailable and not included in the cost estimate.

- Other medications and amounts may vary based on individual needs.
