

Gerson Recovered Patient Network

Thank you for your interest in speaking with a recovered Gerson patient. Our Gerson Recovered Patient Network consists of recovered Gerson patients ("Networkers") who volunteer to speak with prospective patients about their personal experience successfully using the treatment.

Before contacting a Networker, please note the following:

- Be aware and considerate of time zone differences.
- Networkers are unable to offer medical or personal guidance or advice.
- Keep the scope of your questions to the Networker's personal experience with the Gerson Therapy. Refrain from asking questions that should be answered by the Gerson Institute or a Gerson Practitioner (how to do a coffee enema, protocol information, etc.).
- Networkers are volunteers and may not answer your inquiry immediately.
- Be sure to identify your name, return contact information and why you are making contact.

We're here to help! Please don't hesitate to reach out for any questions or assistance regarding the Gerson Therapy.

Best wishes,

The Gerson Institute
